DISASTER PREPARATION CHECKLIST FOR MEDICALLY COMPLEX PATIENTS

Disaster preparation checklist for medically complex patients

If you or someone you love lives with complex medical conditions, you're no stranger to planning. Managing medications, maintaining an appointment schedule with multiple physicians, and preparing for any out-of-home trip require significant forethought. Planning for an emergency situation is no different.

In the event of a disaster, the last thing you want to worry about is how to power your loved one's medical equipment or ensure they have adequate prescriptions. We've created this checklist to simplify the preparation process, so you can focus on taking care of yourself and your family when the unexpected happens.

Personal information and medical records

Scan or take photos of all your documents and save them on your phone under "favorites." It's also a good idea to print the copies and store them in a watertight container, in case you're unable to access your device.

☐ Driver's license(s) ☐ Passport(s) ☐ Social security card(s) ☐ Birth certificate(s) ☐ Proof of custody, if applicable ☐ Bank account information □ Advance directives ☐ Insurance cards ☐ Physician(s) contact information* ☐ Medical records from each physician, if possible ☐ Neuropsychological test results ☐ Prescription information, including:* ☐ Prescribing physician ☐ Physician's phone number ☐ Diagnosis ☐ Drug name ☐ Dosage and frequency ☐ Allergy information ☐ Drug ☐ Food □ Environmental

☐ Vision and hearing records, including

eyeglass/contact prescriptions

☐ Medical alert tags or bracelet

- ☐ Card containing communication instructions if your child has speech or social challenges
- ☐ Emergency contact information, including a list of doctors, family members and friends who should be notified if you, your partner or your child are injured
- ☐ Authorization Agreement for Voluntary Adult Caregiver, which authorizes family or friends to make decisions on your child's behalf if you are unavailable for any reason (be sure to provide the voluntary adult caregiver with a copy, as well)
- ☐ List of medical facilities in your area (including urgent care clinics, hospitals, and dialysis centers, as applicable), as well as nearest out-of-town options

Mark your calendar or set a phone reminder to update your documents and go bag every six months. Review all information to ensure it's up-to-date and check the expiration dates on your emergency prescription supply.
